### Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as BROWN'S IRON BITTERS, and it does this by commencing at the foundation, and making the blood pure and rich.

Wm. P. Marshall, of Logansport, Indiana, writes: "My wife has for many years been troubled from pain in her back and general debility incident to her sex. She has taken one bottle of Brown's Iron Bitters, and I can truthfully say that she has been so much benefited that she pronounces it the only remedy of many medicines she has tried."

Leading physicians and clergymen use and recommend BROWN'S IRON BITTERS. It has cured others suffering as you are, and it will cure you.

Our Progress. As stages are quickly abandoned with the completion of railroads, so the huge, cathartic pills, composed of crude and bulky medicines are quickly abandoned with the introduction of Dr. Pierce's "Pleasant Purgative Pellets," which are sugar-coated, and little larger than mustard seeds, but composed of highly concentrated vegetable extracts. ### FRANK AND CLEAR.

Having Admitted the Strength of the Evidence, an Eminent Physician Takes Legal Action.

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincey Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

121 WEST TENTH STREET, NEW YORK, August 11, 1883.

Messrs. SEABURY & JOHNSON, Gentlemen:—Like most of my profession, I am cautious about placing my faith in any new medicine or curative agent. But your BENSON'S CAPSICINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My assistant was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the BENSON'S was comparatively new to me. I had heard, however, of its merits as a remedy in cases of lame back, local rheumatism, neuralgia, congestion of the bronchial tubes and lungs, dyspepsia, torpid liver and the like affections, and have since begun to experiment with it personally. I find BENSON'S CAPSICINE PLASTER an exceptionally clear plaster to use and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named. Should you desire to do so you may use my name to that effect. Very truly yours, H. E. KANE, M. D.

The genuine have the word CAPSICINE cut in the center. Price 25 cents. Seabury & Johnson, chemists, New York.

TUTT'S PILLS cure all these ailments. They have no equal. Their action is producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work and are a perfect ANTIDOTE TO MALARIA.

## EDITORIAL NOTES.

At a session of the British Association for the Advancement of Science, the condition of the cotton trade was discussed, the general opinion being that England has nothing to fear from foreign competition. In an address, Sir William Wheelhouse ascribed the commercial depression of the country to the operation of free trade laws and advocated a return to the protective tariff. Some members argued that despite the protective laws, Canada's imports from Great Britain are increased, while imports from the United States remain standing. Sir Charles Tupper contended that protection was forced upon Canada by the fiscal measures of the United States.

Australian newspapers generally express dissatisfaction at Lord Derby's dispatch, condemning the projected annexation of the South Pacific Islands to Australia, and they assert that owing to this policy on the part of the home government the colonies will be flooded with French convicts. In the Victorian Parliament the service declared that Lord Derby had failed to appreciate the danger and that the colonies themselves must devise means for its prevention. A meeting of representatives of the various colonies will be held in Sydney the latter part of November at which the subject will be discussed.

Claim agents have been sending out circulars stating that by an act of Congress the Secretary of the Interior is authorized to increase the pay of all assistant marshals engaged in taking the ninth census. The Secretary says that additional pay can only be allowed in a limited number of cases where he is satisfied the pay was insufficient and warns all against misleading circulars.

It is said that an Austro-German alliance, as directed against Russia and France has been formed, and in the event of war between Germany and France, Austria is to maintain neutrality. In the event of war between Austria and Russia, Germany is to do likewise. If a third power attacks Germany or Austria, the armed neutrality is to be converted into active cooperation.

A semi-official journal, in an editorial, emphatically denies that King Alfonso's visit to Germany is connected with a desire of Spain to form an alliance with Germany. The policy of the government is to maintain friendship with all nations and develop liberal institutions at home.

The Signal Service having predicted frost last night for most of the Northern States the Associated Press collected notes from all the principal points named up to midnight, and in not a single instance did frost occur.

A French newspaper says that Prime Minister Ferry forwarded a request for English mediation in the case of the pending negotiations with China. Granville, Foreign Secretary, is inclined to accede to the request.

The Liberal League Convention in Milwaukee is discussing propositions to have all the elections on Sundays, to let the ladies vote, and to banish the bible from Congress and to abolish the United States Senate.

The river of Tonquin will soon fall and the French forces may then be placed in a dangerous position, as their gunboats will be unable to steam up to the town. The rumor is Hanoi will be evacuated.

Something akin to a revolution has made its appearance at the Imperial Palace at Peking, China, and is backed by popular demonstrations by the people, who demand that the Empress, who does not seem energetic enough to suit popular demand, shall abdicate in favor of Prince Tun, an uncle of the Empress.

Naval Appointments—Cattle Disease.

WASHINGTON, D. C., September 22.

Secretary Chandler will await the return of the President before coming to a conclusion as to whom he will appoint to the position of Chief Engineer of the Bureau of Steam Engineering, and the Commander of the Mare Island Navy Yards at one time. The Secretary has determined to designate Commodore DeKraft for the latter vacancy but he seriously objected to being sent to San Francisco; and it is thought that his wishes will be respected in the matter, and that he will be allowed to continue as President of the Board of Inspection. Secretary Folger sent a communication to the Collector of Customs at New York in which he stated that the United States Cattle Commission had been informed of an alarming increase in the foot and mouth disease among the cattle of Great Britain. Under these circumstances the officers of the customs would hereafter exercise care in examining into the sanitary condition of all cattle, sheep, swine and goats imported into the United States.

Sharp Chicagoans.

CHICAGO, September 22.

Before the adjournment of the Board of Trade yesterday, the Secretary rapped to order and announced that some one on the floor had mutilated the signal service weather report so as to give a contrary meaning. Before the deceit was discovered a perceptible decline in corn resulted, a number of members losing thereby. The real indications pointed to frost Friday and Saturday night in all States north of Tennessee. A knot of operators gathered about it when posted on change and soon there was noticed interpretations to the effect that the statements had been contradicted, and not long afterwards the entire bulletin disappeared mysteriously.

Upon his return from the Pacific Coast, Ryan will have a contest with Sullivan, about the last of December.

Killed by His Employer.

LEXINGTON, Ky., September 22.

Last night Colonel R. S. Strader, a well-known horseman, shot and killed Bedford Foster, a negro employee. Strader was told that Foster had burned a stable, in which was a valuable filly, and he got a shot-gun and went to the stable. Foster fired at him and ran; Strader returned it. Foster then advanced on Strader, who fired twice, killing him instantly. Strader gave himself up, and was admitted to bail.

The Knights of the Cue

Dastardly Murder.

STOCKTON, September 22.

Julius Dietrich, a painter by trade, and a worthy man with a wife and child, was shot dead in the presence of his wife by a man named Turcott, an entire stranger. Five minutes before the occurrence, Turcott with two companions, passed down the street, and seeing Mrs. Dietrich standing in the door of her house, made an insulting remark about her. As the three men were on their way back, Mrs. Dietrich said to her husband, who in the meantime had arrived, "That's the man who insulted me," pointing to Turcott. Dietrich advanced to ask him what he meant, when Turcott drew a revolver and shot him dead. The terrified wife pursued the murderer, who fled, but was quickly captured by a police officer, who jailed him just in time to escape lynching by the crowd that rapidly assembled. The two companions of Turcott have been captured. A more cowardly and atrocious deed was never committed.

Mr. Villard replies to a dispatch of the Astoria Chamber of Commerce asking if he will build the Astoria and Forest Grove Railroad, provided they find a contractor who will build the line for \$30,000 per mile, and furnish the terminal facilities at Astoria, with the following: "Will be glad to build the line if the contractors will take \$20,000 per mile in first mortgage bonds and \$10,000 per mile in second mortgage bonds for their work, being all the available funds of the company at present."

It is stated that the disorganization of the Knights of Labor is threatened, because Frank Foster, a pronounced free trade man, has been placed at the head of the executive board, created at the Cincinnati meeting, and which will hereafter direct and control the order.

The issues in the Iowa Campaign are a protective tariff and prohibition by the Republicans, and a tariff for revenue and license by the Democrats. Both parties are making a vigorous fight, and have the assistance of several distinguished speakers from other States.

Collector Taable, of Pensacola, had another interview with the Secretary of the Navy to-day, relative to furnishing rations to the destitute in the naval reservation. The Secretary is disposed to take the responsibility of issuing additional rations to destitute families upon the reservation to a limited extent, but expects some help to be given by the inhabitants of the State and city.

## NOTES

Pyramid trout are coming into the market.

The balance of the California rifle team went home to-day.

Three cars of California fruit went east, attached to the express this morning.

Twelve cars of cattle, shipped by L. F. Judge, at Winnemucca, passed west to-day.

Richardson and Woods left Reno for Surprise valley yesterday, loaded with merchandise.

Tansell's 5-cent cigars at Nasby's. Thermometer at 7, 9, 11, 1, 3-55, 70, 74, 79, 81.

The District Court will meet again next Monday, when the Combs case will be called.

The cleaning up of the V. & T. yard adds greatly to the general appearance of that part of town.

Osburn & Shoemaker have put in new shelving on the side of the store made vacant by the removal of I. Fredrick.

D. Lachman of the firm of Lachman & Cohn, will go below tomorrow to purchase a Fall and Winter stock of clothing.

Preserved oranges and lemons, which are used the same as citron, to be had at the grocery store of A. Lindley & Co., on Virginia street; also spades, shovels, hay forks, hoes, cutlery, glass and crockery ware.

Boca, Milwaukee and St. Louis beer, by the glass or bottle to be had at the Wine House. No extra charge for "mixed" drinks, every kind of a beverage in the house being of the same price. Examine their wholesale stock and prices.

A full line of table linen from the largest table-cloths to the most stylish, and neatest napkins in use, can be had at F. Levy & Bro's., at San Francisco prices. Examine their Fall and Winter dress goods, which they are selling at reduced prices.

The crowds always to be seen at Johnny Bell on Saturdays, indicate that those who pay attention to cleanliness, comfort and a genteel appearance, know where to go to get a close shave that will not cause tears to flow during the operation. None but first-class artists employed.

Anyone in need of an A 1 Wheeler & Wilson No. 8 improved sewing machine can buy of Knowles & Bainbridge a little cheaper than the same machine has ever been sold in this place. Their stock of crockery and glassware is going off rapidly as they have determined to close out this class of goods.

## Officially Denied.

John Hamilton, Superintendent of the American Banking Exchange of London, England, was in Reno last evening, and authorized the GAZETTE to deny the report sent to the press from San Francisco, yesterday, to the effect that Charles A. Gillig, claiming to be of the American Banking Exchange, London, and reported to have been robbed at the Lick House in San Francisco, of \$5,500, is in no way connected with that well-known banking house, Mr. Gillig having been discharged over a year ago. It seems this young blood is of a romantic turn and passionately fond of newspaper notoriety, and never misses an opportunity to have his name appear in print whenever he can make himself out a hero. He was at one time engaged to Miss Amy Crocker, now Mrs. Porter Ashe, and traveled, so it is said, all over Europe a year or two, at the expense of Mrs. Crocker, his intended wife's mother. He turned up recently in San Francisco, where he has been mowing a wide swath in social circles. Mr. Hamilton thinks Gillig is trying to scoop in a pot at the expense of Mrs. Crocker, or else is making a brush for the affections of some Pacific coast maiden, with money.

Another Old-timer's Departure.

Hon. C. S. Varian has shipped his library and office fixtures to Salt Lake, and he will follow tomorrow morning. Mr. Varian has been practicing law in this State for 15 years, and has steadily been climbing to a place in the front rank of his profession. He has been a resident of Reno for several years and has many friends who regret his departure. He, like many other Nevada pioneers, thinks he cannot afford to spend any more of his time in this State, but wishes to go where there are more opportunities to do good. It is truly a laudable ambition. Mr. Varian has selected Salt Lake as his future field, where the senior member of the firm of Dickson & Varian has already a lucrative practice. The GAZETTE hopes Charlie may soon reach the summit of prosperity in his new field of labor, and cheerfully recommends him to the Salt Lake-Mormons as well as Gentiles.

## Still Shooting.

This morning's Carson Appeal says: Yesterday Thaxter, of the Nevada team, and Williams of the California team, shot a match of 100 rounds each at 200 yards. Thaxter scored 447 and Williams 445. Thus Nevada again wins by two points. The two men were looked upon as the best shots in their respective teams.

## HIGH-TONED HAWAIIANS.

An Interesting Account of Society Matters on the Islands.

HONOLULU, H. I. Aug. 27.

A person abroad reading a Honolulu newspaper would incline to think that society here was of the most cosmopolitan character, and indeed it is. All classes of amusement, in fact, all sociability, is confined to aristocratic circles. One must see the "aristocrats" to fully appreciate them. Fancy, if you can, an "exclusive" evening party where an Hawaiian princess waits with an ignorant Portuguese, who has been shrewd enough to rise from the position of a plantation slave to the management of a sugar mill; while a "heathen Chinese," an agent of the Six Companies, ogles with a white woman in one corner of the room, and a white man in the opposite corner makes love to a half-Kanaka-half-negro girl, and you have in your mind's eye a picture of a "select" affair in the Hawaiian metropolis. None of the "riff-raff," such as hotel-keepers, retail merchants or mechanics, are tolerated in the least. But the fortunate owner of a plantation, a sugar mill, steamship, or a foreign consulate, has only to hint at his slightest desire and it is gratified. The upper ten here put on more airs than I think it is possible for European royalty to do. The lady of the house always is accompanied by a servant of some description—if on foot by her maid, and if riding by her footman. These flunkies are an interesting study to Americans. The bon ton ride in dog carts, and this individual, as he sits upon his lofty seat above or behind his master and mistress, with cut-away coat, white tie and gloves, polished boots and plug hat, might easily be mistaken for the dummy advertisement of a clothing house.

The popular means of transportation here is through the medium of hacks. There are no less than 400 of these vehicles licensed in this city for carrying passengers. The rates of fare are fixed by the Government and range from 22 1/2 cents to \$1.50, according to distance. Here is one thing in which the "common" people have decidedly the best of their "way-up" fellow citizens. The hacks are all first class conveyances,—at all times more comfortable than the "tony" rigs, and when it rains, inestimably superior. It is liable to rain in this country at any moment and at such times the passengers in hacks, made rain-proof by an admirable arrangement of oilskins and patent leather, can afford to look with contempt upon the big bug who rides past him in his clumsy English dog cart, boxed in like a sardine in a can, where he must take the rain in his face as long as he rides. The footman, too, about this time, looks more like a worn-out dish rag than the advertisement before mentioned. You should see a rain storm on the island. The saying, "It never rains but it pours," must have originated here. We had one yesterday, "a little shower," the natives termed it, which turned our dry streets into "raging canals" in about 15 minutes. The water seems to drop from a clear sky, so suddenly does a rain commence, and every man in the city while he wears the thinnest linen, carries an umbrella. These are only a few of the peculiarities of this place, and sometime you may expect to hear of others.

Sierra Valley Items.

The Leader of the 21st Inst. says: Threshing in the valley is about completed and most of the farmers are prepared for a storm.

Fourteen carpenters are at work at Garfield & Hagerty's saw-mill at Howard Ranch, framing timbers for the new 20-stamp mill of the Columbo mine.

The quail have all gone to the lower regions. Not many were shot hereabouts. When it is lawful to shoot one, there will be none within the borders of this county.

The sheep men and dairy men from the lower country, who come to the mountains during summer, are preparing to return to the valleys with their flocks and herds.

A valley hunter killed and brought in a curiosity the other day. It was no less than a cross between a skunk and a ground-hog, possessing some of the prominent characteristics of both animals. It was sent to the Plumas National man and placed in his cabinet.

A Good Crop.

The Winnemucca Silver State says: A number of Paradise men, who have been in town this week, agree that the yield of wheat and barley in the valley this year, in proportion to the number of acres sown, is the heaviest for years.

Many farmers are through threshing, and are well satisfied with the result. But, while the yield per acre was good, the acreage was less than common.

Beef Moving.

Sparks and Tinnin are gathering beef cattle on their Goose Creek and Smoke River ranges. They will drive to American Falls and will ship east on the Oregon Short Line. They will have nearly 15,000 that they can sell this year.

The Band of Hope.

The Band of Hope in Reno will meet in the Methodist Church tomorrow (Sunday) at 4 o'clock, and the public are cordially invited to be present.

## PERSONALS.

Barney Horn, the cattle man, went east to-day.

Surveyor General Preble was in town this morning.

A. C. Ellis returned from below to-day on his way to Carson.

Division Superintendent Jerry Whited passed east this morning.

John Gillig of Virginia was a passenger for the bay this morning.

E. B. Ball, the Carson hardware merchant, went below on this morning's express.

Col. Matt Canavan and Lo Hamilton of Storey county were passengers for the Bay on this morning's express.

State Controller Hallock returned from a three months' visit to the East to-day. He came by the Southern route.

J. B. Gramm of Winnemucca was on the east-bound passenger this morning. He reports David Melarkey as quite low.

Mrs. Smith of Mohawk valley, mother-in-law of Sheriff Emmitt, who has been visiting her daughter in Reno, returned home yesterday.

Captain John Kelley and Henry Piper and family of Virginia City, and D. W. Balch of the N. & O., came from California this morning.

Dick Dwyer, the drummer, accompanied by his wife, came in from Carson last evening. He seems to have been pretty badly hurt about the hips, by the fall of the seats at the shooting match at Carson.

J. A. Rigby, formerly of Carson and Lake Tahoe, returned to Humboldt Bay, Cal., to-day. He is the manager of the Pacific Lumber Company, whose timber lands are situated about 25 miles from tide-water.

Our Public Schools.

The work of the school year has been most favorably commenced and promises most efficient results. Competent and zealous teachers are at their posts, and they are worthy of more consideration than the passive recognition of well-done good and faithful servants. Parents should visit the various departments, from the kindergarten to the high school, and thus know from observation the progress being made. The teachers and the taught always welcome visitors—especially those who will note the work being done. Were half the money being expended to the education of any public work in the town, as is being spent to educating the children, scarce a nail would be driven without the supervision of someone who would deem it his duty to look after the public interest. Yet these same parties may have several children in school and never can find the time to look and see what kind of mental training or discipline his children are receiving. Let the patrons of the schools look into the school-rooms more frequently. By so doing they will lighten the labor of the teachers and their children respect them the more.

The Trials of Statesmanship.

At the last meeting of the Board of Examiners, while the money was being counted, a voucher was introduced by Uncle George Tuffy, only a part of which had been paid. He turned it in as cash to the amount which he had paid out on it. The gigantic brain of the Governor was so occupied with matters pertaining to other affairs of State and to his herd of nut-head cattle in Nye county, that he was unable to grasp the transaction in its true relation until after a long discourse in broken English by Uncle George. When the facts did dawn upon the gubernatorial mind he washed his hands in invisible water and said: "Ah, that is a very lucid explanation. 'Of course, eh?' roared Uncle George: 'The was nothing loose about it.' 'Oh, certainly, certainly,' I said lucid, not loose," said the gentle Jewett, and peace was restored in the capitol.

Discharged From the Asylum.

Mrs. Emerick of Eureka, who has been an inmate of the Insane Asylum for the last three or four months, was discharged cured by Dr. Bishop yesterday, and left, accompanied by her husband, for home to-day.

A Careless Driver.

A wagon loaded with 185 kegs of powder was blown to atoms, together with the four-horse team and Thomas Cleveland, the driver, at North San Juan, on Wednesday. The driver was smoking a cigar and one keg leaked.

Murdered Man.

The body of Bernard Navarre, better known as "Frenchy," was found near Beowawe, Nevada, with his skull broken in. He was a vegetable farmer, and was born in France 90 years ago.

Distinguished People.

Senators, Members of Congress, Cabinet officers, Members of Parliament, scientists, savans, eminent physicians, leading pharmacists, praise St. Jacobs Oil, the great pain cure.

Guard and protect your health, make use of that true and efficient tonic medicine, Brown's Iron Bitters.

Merited Recognition.

Superintendent Crawford, of the U. S. Mint at Carson, has presented Jonathan Saffell with a Sharp's rifle for his reliability at the Interstate match.

Two Silvers.

The Kind of Trees That Grow on Mount.

The San Francisco Architect and Building News says the two finest pieces of timber that ever were sawn were hauled through San Francisco Triennial week. One piece is 144 feet long by 18 inches in size, and contains 3,456 feet of lumber. For over 100 feet there is no knot that a five-cent nickel will not cover, and in the whole piece of timber the largest knot can be covered by a half dollar. It is wonderful that a stick of timber of the size given should be so remarkably clear of knots. Its companion is of the same length, 16 inches square, and contains 2,352 feet. When it is taken into consideration that the tree from which the first mentioned piece of timber was taken was cut several feet above the ground, and that 150 feet from the cut made to fell the tree, it was of such a size as to enable the millman to saw the log so as to produce a piece of timber of the size given, one can imagine the size the butt must be, and partly comprehend the amount of labor required to handle such an immense stick.

These pieces of timber were sawn at the Port Blakely Mills, Washington Territory, the owners being Renton, Holmes & Co., the well-known lumber merchants of this city.

A short time ago there was received in this city a stick of timber 104 feet long, 24 inches square, and almost free from knots. After its arrival here it was allowed to be on inspection for a short time, when it was taken to one of our mills and sawed into joists, as the purpose for which it was manufactured was given up, and no use could be found at the time for a stick of timber of such large dimensions.

[Try again, neighbor. A stick of timber 18x18—144 feet long contains 3888 feet and 16x16—144 long contains 3072 feet.—ED. GAZETTE.]
